Education

Chandigarh University

Bachelor of Engineering, SGPA:7.00

Sep. 2020 – June 2024

Mohali, Punjab

Intermediate, Sunbeam Academy

Percentage 69.2

2019

Varanasi, UP

High School, Sunbeam Academy

Percentage 70.3

2017

Varanasi, UP

Relevant Coursework

- **Frontend Development:** React.js, Tailwind CSS, Bootstrap
- **Backend Development:** ASP.NET Web Forms, Spring Boot
- **Database Management:** SQL (SQL Server)
- **Programming Languages:** JavaScript, Java, Python, C#
- **AI & Development:** Generative AI, Vibe Coding, Prompt Engineering, Custom GPT Development

Experience

RR Finance

August 2024 – Present

Senior IT Associate (Web Development, Server, Database Operations and AI Integration)

- Handle live server management, including deployments, uptime monitoring, and issue resolution in IIS environments.
- Manage SQL Server and database operations, including backups, restoration, query handling, updates, and data integrity.
- Work on IPO, NCD, and SME modules, supporting core financial processes and system workflows.
- Develop and maintain ASP.NET Web Forms applications, including frontend improvements and backend integration.
- Build and implement AI-driven solutions, including internal chatbots and custom GPT tools to automate tasks and improve efficiency across the organization.

TECHPLEMENT

June 2024 – July 2024

Front End Developer Intern

- Developed a Quiz Application Using Mern Stack
- Develop components to create quizzes, including adding questions and options.
- Also Created Advance TODO App using React and Tailwind CSS
- Learn To develop animated Website OCHI DESIGN REACT APP using React and Tailwind CSS

Bharat Intern

May 2024 – June 2024

Front End Developer Intern

- Created Responsive Portfolio, Food Ordering Website (UrOrder), And Weather App

Projects

Nebula AI – Voice Assistant Platform | React.js, Node.js, WebSockets, Groq AI, VAD

May, 2026 – June, 2026

- Developed an AI-powered voice assistant capable of real-time voice conversations using speech recognition, voice activity detection, and LLM-powered responses.
- Built a React-based frontend with a responsive conversational interface optimized for desktop and mobile devices.
- Implemented WebSocket-based communication to enable low-latency streaming between the client and backend.
- Implemented voice activity detection and silence-based auto-stop mechanisms to improve conversational flow and reduce unnecessary audio processing.
- Integrated Groq AI for real-time response generation and designed a voice interaction pipeline to improve conversational flow and reduce unnecessary microphone processing.
- Engineered a scalable architecture focused on performance, responsiveness, and seamless user experience.

RR Guru(AI-Powered Mutual Fund Advisory Assistant) | OpenAI GPT, Financial AI

March, 2026 – Present

- Developed an AI-powered mutual fund advisory assistant for SIP planning, goal-based investing, portfolio allocation, and financial guidance.

- Designed structured prompt workflows and financial calculation logic for SIP, Lumpsum, CAGR, SWP, and tax-aware investment planning.
- Integrated RR Finance knowledge datasets and custom advisory rules to provide personalized category-based portfolio recommendations.
- Built conversational financial guidance system using OpenAI GPT customization, prompt engineering, and retrieval-based knowledge design.
- Optimized advisor logic to improve recommendation accuracy, reduce hallucinated fund suggestions, and enhance user trust.
- Developed an interactive GPT prototype for demonstrating AI-driven mutual fund advisory and financial planning workflows.
- [View Prototype](#)

RR AI Chatbot | *Generative AI, ASP.NET Web Form, Open AI, Grok API* Nov, 2025 – Dec, 2025

- Developed an AI-powered chatbot for RR Finance to automate internal workflows and user query handling.
- Designed structured prompts and response flows to improve accuracy and reduce manual intervention.
- Integrated chatbot logic with company use-cases for faster decision support and customer interaction.

RR Finance Main Website (IPO & NCD Portals) | *ASP.NET Web Forms, SQL Server, Bootstrap* 2024 – Present

- Worked on RR Finance's official website, developing and maintaining IPO and NCD investment portals.
- Implemented dynamic data rendering by fetching and displaying real-time data from SQL Server databases.
- Handled backend logic and database integration to ensure accurate data flow on live financial pages.
- [Click To Visit SME/IPO Portal](#)
- [Click To Visit NCD Portal](#)

Advance TODO App | *React.js, Tailwind CSS, Redux Toolkit, Local Storage* Feb, 2025

- Developed a responsive task management application using React.js and Tailwind CSS.
- Implemented state management using Redux Toolkit for efficient task creation, editing, deletion, and status tracking.
- Integrated Local Storage to persist user data across browser sessions without requiring a backend database.
- Designed a clean and user-friendly interface with responsive layouts for seamless usage across devices.
- [Click To Visit](#)

Technical Skills

Languages: JavaScript, C++, Python, SQL, C#

Technologies/Frameworks: ASP.NET Web Forms, React.js, Tailwind CSS, Bootstrap

Database: SQL Server

Tools & Platforms: GitHub, VS Code, Visual Studio, Postman, IIS

AI & Development: Generative AI Integration, Prompt Engineering, Custom GPT Development, Open AI

Certifications & Training

Java Spring Boot & Generative AI Development Ongoing, 2025

Coding Ninjas

- Backend application development using Spring Boot, RESTful APIs, database integration, and deployment.
- Hands-on projects integrating Generative AI features into applications, including AI API usage and prompt engineering basics.

Extracurricular

- (AIU)All India University Cricket Tournament-(2021-2023)
- (PMIS) Pubg Mobile India Series(2020-2021)
